Quality and Environmental Management Policy

Our goal is to become synonymous with quality in the field of aluminium processing and to supply our customers with the highest quality products in the long run.

Our vision is to become an eminent supplier to the automotive industry.

To achieve the goals we follow the principles:

- ✚ We strive to meet the requirements of customers and supply them with high quality products.
- ✚ We establish fair and reciprocal relationships with suppliers, the local community and other stakeholders.
- ✚ We develop the skills of employees through training, motivation and support. We offer employees job security and the possibility of promotion. We include employees at all levels in the system of continuous improvement and the reward system.
- ✚ We are committed to best practice, encourage innovation and strive for excellence.
- ✚ We are committed to the principle of continuous improvement. The effectiveness of these is measured through regular internal audits and reviews of process performance.
- ✚ We use a process approach and identify and reduce risks at all levels.
- ✚ In the field of environmental management, we meet all legal requirements, as well as the requirements of all stakeholders.
- ✚ Reducing the consumption of natural resources, substances and energy, preventing hazards and reducing the burden on the environment, by providing clean waste water, developing and using all the best available techniques to reduce the burden on the environment.
